Project details

Project name

testSpingAppProject

Project ID

This ID will be appended to names generated for resource ARNs and other AWS resources.

testspingappro

Project ID must be within 2-15 characters, start with a letter, and can only contain lowercase letters, numbers, and dashes.

Project repository

Select a repository provider

☒ CodeCommit

Use a new AWS CodeCommit repository for your project.

☐ GitHub

Use a new GitHub source repository for your project (requires an existing GitHub account).

Repository name

testSpingAppProject

Repository name can only contain letters, numbers, dashes, underscores, and periods. It cannot end with ".git".
